## (54) Title: SAFETY SYSTEM FOR INDUSTRIAL OPERATIONS

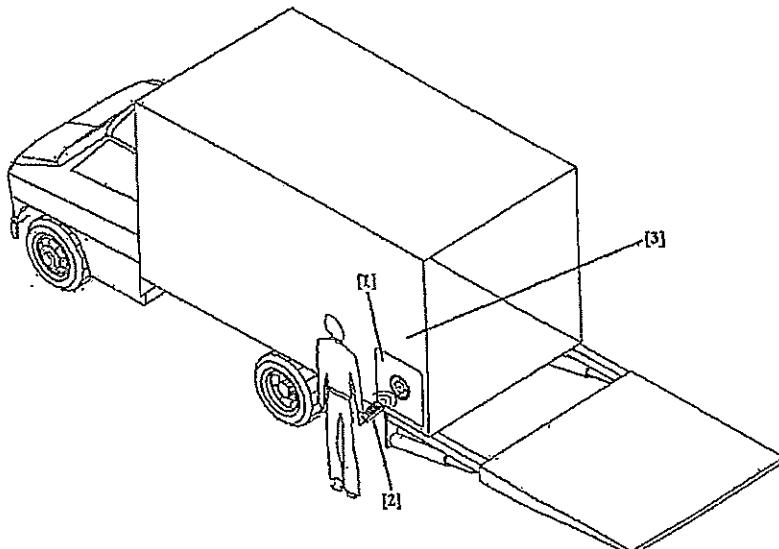

FIG. 2

(57) Abstract: A safety system for industrial operations is described, comprising at least one safety device (1) placed on an object (3) subjected to an industrial operation; and at least one wireless control (2) for such industrial operations, in which the wireless control (2) is adapted to be actuated only if it is at a small distance from the safety device (1), such distance being such as to guarantee safety operating conditions for an operator managing the wireless control (2).
